## **DETAILED ACTION**

### ***Response to Remarks***

1. The applicant has amended the claims to overcome the 101 rejection set forth in the previous office action.
2. The examiner notes that the examiner was considering allowance but , upon further inspection, noticed a 112 2nd issue that needed to be addressed. The examiner has determined that there is a 112 2<sup>nd</sup> issue with part (e) of claims 1,10 and 19 (See rejection below).
3. Claims 3, 9,12,18,21 and 27 are cancelled.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1,2,4-8,10,11,13-17,19,20,22-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1,10 and 19 recite “

(e) triggering, in the processor, an alarm when one of the thresholds is exceeded, wherein the thresholds are set to generate the alarm based on loss of the audio signal in the data stream, or when an average level of the audio signal in the data stream is too high or too low, in order to monitor the audio presence and level within the data stream and to adjust the audio level as desired. “

Are two alarms triggered? One generated by the threshold generating an alarm based on the loss of the audio signal and one generated when one of the thresholds is exceeded? Clarity is needed. The examiner is not clear.
